VIACHESLAV DIATLOV

SENIOR PRODUCT DESIGNER

VDTLV.ME · CONTACT@VDTLV.ME · LINKEDIN.COM/IN/VDTLV

Senior Product Designer with 6 years of experience in B2C/B2B (E-commerce, Sport, and Wellness Tech). I take a data-driven approach and use research where common sense alone isn't enough. Experience leading a design team, including planning and rolling out AI tools. I combine strategic thinking (CJM, unit economics) with hands-on design of complex systems.

EXPERIENCE

LEAD PRODUCT DESIGNER, FITMOST – 09/2022 – PRESENT

Fitmost is a most popular membership platform for sports and wellness in Russia.

- **Led the design and concept development for "Ultra"**. It became a prerequisite for partnerships with the loyalty programs of major banks; bookings of Ultra spots generate **12% of booking revenue**.
- Ran 4 iterations of A/B tests on the welcome offer. Conversion to f**irst booking grew by 69%.**
- Redesigned the top of the funnel, **reducing drop-off by 16%**.
- Built a team of 4 designers. Established the design process and design-to-development handoff process; the team consistently ships features within quarterly deadlines.
- Embedded a "research → hypothesis → A/B test" cycle into the product process.
- Introduced AI tools into team workflows: Claude for copywriting and research analysis; Cursor for implementing animations in code, which **sped up development by 18%**.

SENIOR PRODUCT DESIGNER – 09/2022 – 12/2023

- Designed and launched a "Bill Splitting" **feature, solving a critical B2B accounting pain point** and opening a completely new user segment for the business.
- **Doubled viral user acquisition (x2)** and **reduced CAC by 30%** by driving A/B tests and analyzing unit economics to optimize the referral funnel.
- Revamped the Partner Onboarding flow, simplifying the process for the account team. This optimization contributed to a **5x expansion** in city presence across Russia in 2023.
- **Built a scalable Design System** based on tokens and a semantic color palette, adopted by both design and engineering teams to unify the product UI.

MIDDLE UI/UX DESIGNER, RIGHTONTREK – 09/2021 – 09/2022

- Owned the E-commerce vertical experience, ensuring seamless integration with the broader ecosystem of outdoor adventure services.
- Managed and developed the design system.

UI/UX DESIGNER, CHEF BAITY – 07/2020 – 08/2021

- Designed the core interface and developed the company website using a CMS.
- Created the Brand Identity, including the brand book, social media guidelines, print materials, and merchandise.

OTHER PROJECTS AND ACHIEVEMENTS

WINNER OF VK HACKATHON – 12/2024

- Conducted customer development (CustDev) and calculated unit economics for an AI Shopping Assistant concept for VK Communities. Collaborated with developers to build the "purchasearch" mini-app.

WINNER OF RUSSPASS HACKATHON – 05/2024

- Designed the user flow and interface for an AI Chatbot that plans travel activities based on vectorized offers from the Russpass service. Delivered a working solution in a cross-functional team with backend and frontend engineers.

DESIGN MENTOR, GOHELPER.IO – 01/2023 – 04/2024

- Created real-world case studies and assignments for product design students.
- Conducted regular reviews of student research and design work.

CONTENT STANDARDISATION VOLUNTEER, UTEMPLA – 10/2022

- I contributed to the MVP launch of UTEMPLA by developing automation tools to transform raw text into standardized samples.

EDUCATION

DATA-DRIVEN PRODUCT MANAGEMENT SIMULATOR
GO PRACTICE COURSE – 2024

INFORMATION TECHNOLOGIES IN DESIGN
ITMO UNIVERSITY — BA, 2021

SKILLS

Product thinking, Product vision, UX research, Qualitative and Quantitative Research, B2B, B2C, Mindbox, Amplitude, Google Analytics, SQL

Product Design, Mentorship and Training, Communication Design, User Experience (UX), Research, Design System, Accessibility, User Interface (UI), Mobile- & Web-design, Iconography, Information Architecture, Wireframes, Prototyping, Figma, Sketch, CSS, HTML, Adobe Suite
